

COME TO TORONTO, CANADA IN JUNE!!!

**The York University
Centre for Vision Research
and the
Vision: Science to Applications
Program**

invite you to attend the

**International Conference
on Vision in the Real World**

June 13-16, 2017

Session Themes:

- Neural Processing under Natural Conditions
- Vision and Limb Control: Mechanisms and Applications
- Visual Knowledge: Priors and Learning
- Seeing in 3D
- Vision: Science to Applications Symposium

This four-day event offers a stellar lineup of invited international speakers as well as an open poster session. The setting is relaxed with plenty of time for informal discussion.
