AI + HADR 2019

Artificial Intelligence for
Humanitarian Assistance
and Disaster Response

Call for Papers

Important Dates

SEP 16
Submissions Due

OCT 1
Notification Deadline

OCT 14
"Camera Ready" Deadline

DEC 13/14
Workshop Held

WE INVITE RESEARCHERS TO SUBMIT THEIR RECENT WORK on the topic of applying Artificial Intelligence (AI) to Humanitarian Assistance and Disaster Recovery (HADR) problems to be featured at our workshop at *NeurIPS 2019*.

We welcome methods from Machine Learning, Computer Vision, Robotics, Natural Language Processing, Information Theory, Decision Theory, Game Theory, Causal Modeling, Applied Statistics, and related fields.

Further, we welcome applications to a variety of humanitarian and disaster response issues, including, but not limited to, search and rescue robotics, computer vision for damage assessment, motion planning in obstructed roads, disinformation management on social media, and much more.
