ET2ECN 2021

SCOPUS INDEXED

Emerging Technology Trends in Electronics, Communication and Networking

17-18 NOVEMBER, 2021

SCOPE AND OVERVIEW

4th International Conference on Emerging Technology Trends in Electronics, Communication and Networking (ET2ECN 2021) is soliciting original and previously unpublished papers addressing research challenges and advances in the areas of Electronics, Communication and Networking systems. The objective of the conference is to provide an opportunity for researchers, academicians and students to discuss and exchange ideas on issues, trends, and developments in Electronics, Communication and Networking. The ET2ECN 2021 conference takes a broader view and seeks papers describing innovative research contributions to the broad field of Electronics, Communication and latest as well as upcoming technologies.

CALL FOR PAPERS

Researchers, Academicians and Professionals are invited to submit a full length paper at the technical sessions of ET2ECN 2021. Papers that present original work, validated by experimentation, simulation, or analysis, are solicited. Practical experiences and experimental efforts from both industry and academia, duly documenting the lessons learned from testbeds, field-trials, or real deployments, are also welcome. The multi-thematic program of this conference will focus on topics and technical areas of interest include but are not limited to as shown in tracks.
