

# M.Sc. in Neuro-Cognitive Psychology

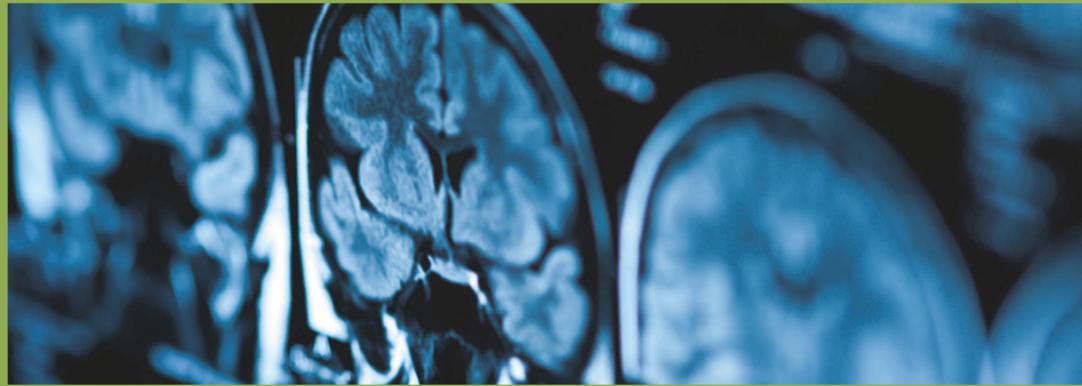

Graduate School of  
Systemic Neurosciences  
LMU Munich

## Discover Excellence in Psychology and Neuroscience!

Join a prestigious program initiated by the Elite Network of Bavaria, designed for exceptional national and international students who are eager to make significant impact in psychology and neuroscience.

## Why Choose Us?

- **Interdisciplinary Curriculum:** Engage with a cutting-edge blend of theoretical and methodological training in experimental psychology and neuroscience.
- **Research-Focused:** Be part of a globally competitive Master's degree that emphasizes research within the Graduate School of Systemic Neurosciences (GSN).
- **Career Ready:** Our program equips you for impactful careers in both research and applied roles in health and industry.

## Exceptional Teaching Experience

- **English Instruction:** All courses are taught in English, fostering an inclusive environment.
- **Small-Group Learning:** Benefit from hands-on, student-oriented teaching that promotes deeper engagement.
- **Expert Faculty:** Learn from leading scientists at LMU, TUM, and esteemed national and international partner institutions.
- **Comprehensive Coverage:** Explore experimental psychology and the broader neurosciences, including applied, clinical, and technological research areas.

## Application Period

December to  
mid-February
